	Overall outcomes* for :			
	Disc Herniation	Disc Degenerations	Sciatica Radiculopathy	Overall
86% or More				
71% to 85%				
56% to 70%				
41% to 55%				
Less than 40%				

## **Comments:**

This procedure has saved many people from having back operations. Continues to be the most effective tx for disc injuries that I have seen out there. It has saved me from having back surgery and has increased the quality of over 600 lives in my office alone.

\* The above data is not peer reveiwed. It is the subjective response from a Physician grading their clinical results with the SpineMED® System.
